

Reshma M

Full Stack Developer

✉ reshmamurugan2025@gmail.com — 📍 Chennai — [🌐 LinkedIn](#) — [🌐 Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate with knowledge of Python, Java, Spring Boot, React.js, JavaScript, HTML5, CSS3, REST APIs, and MySQL. Hands-on experience in building full-stack web applications with user authentication, API integration, and database management. Passionate about building reliable applications, solving real-world problems, and continuously learning new technologies. Eager to contribute to a collaborative team and adapt to emerging technologies.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Frontend Technologies:** React.js, HTML5, CSS3, Responsive Web Design
- **Backend Technologies:** Spring Boot, Django, RESTful APIs, API Integration
- **Database:** MySQL, SQLite
- **Tools Concepts:** Git, GitHub, VS Code, Vite, Object-Oriented Programming (OOP)

PROJECTS

Bus Reservation System

GitHub

- Developed a full-stack bus reservation system using Java, Spring Boot, React.js, and MySQL, with separate Admin and User portals.
- Implemented bus management, booking management, user management, route search, seat availability, booking cancellation, and booking history features.
- Implemented segment-based seat availability to support bookings across different route segments and maximize bus capacity.
- Implemented authentication using Spring Security and JWT, and built responsive interfaces using React.js, Vite, React Context API, React Router, and Axios.

Face Recognition Attendance System

GitHub

- Developed a Django-based attendance system using Python, OpenCV, dlib, and SQLite.
- Implemented real-time face recognition with blink-based liveness detection to prevent spoofing attacks.
- Built CRUD modules for managing students, departments, and attendance records through a Django admin dashboard.
- Added duplicate attendance prevention and configurable time-based attendance validation.
- Designed responsive frontend pages using Django templates, HTML, CSS, and JavaScript.

E-commerce Web Application

Live Demo

- Developed a full-featured e-commerce web application using React (Vite) and JavaScript.
- Implemented product search, cart, and wishlist with real-time state updates using Context API.
- Created a mock backend using json-server (REST API) to handle product data and simulate API calls.
- Integrated Firebase Authentication for secure user access.

CERTIFICATIONS

- Full Stack Development – Besant Technologies

Education

Bachelor of Engineering – Computer Science and Engineering

2021 – 2025

PET Engineering College, Valluoor, Tirunelveli

CGPA: 8.19/10

Higher Secondary (Class XII) - Sacred Heart Hr.Sec.school

88% 2020 – 2021

Secondary (Class X) - Sacred Heart Hr.Sec.school

84% 2018 – 2019
